Yes. I will get all the data and email it to you.
Let me know if you need anything else.

Okay, it looks like she was the primary--I'll talk to Russ... are you going to be able to provide a copy of the case file for discovery compliance too?

Thanks,

Tom

Hi Tom,

Attached is a copy of my CV, reflecting the recent transfer to the MA State Police.

As far as your other question, I don't have my notes in front of me so I don't know if I was the primary or confirmatory chemist (the way the certs are the person on the left is the primary chemist (had custody of the drugs, did preliminary tests, weight, etc..) the person on the right was the GC/MS confirmatory chemist and received a vial from the primary chemist with a small amt of sample to run on the GC/MS against a known standard). I have testified when the drugs were not resubmitted and also when they were so I guess it's just what you prefer. I suggest you talk to Russ Eonas (he's in your office, right?) and see how he went about it if you like, I testified for him in a case in which Annie was the primary chemist and the drugs were not resubmitted. He would probably be able to help you out more than I can. If you would like to have the drugs resubmitted you would need to contact Elisabeth O'Brien, who is the supervisor of the Evidence Office, to arrange that.

Kate

Subject: FW: 10/22 [REDACTED] trial summonses

Hi Kate,

This is sent as a heads-up that your summons for this 10/22 trial will be arriving soon...I wanted to ask for your help on a couple of things...

Could you send me a copy of the DPH Lab case file for the testing done on the drugs referenced below, along with your CV?

Also, Annie is listed on the certs as one of the analysts...I'm wondering if I should have the drugs resubmitted...any input you can offer re how this situation is being handled would be appreciated.

Thanks for your help,

Tom
